- Our 911 Center has increased training and are asking callers specific questions outlined by the N.C. Office of EMS. Callers requesting EMS and Law Enforcement assistance will be asked to meet first responders outside when possible, in an effort to minimize exposure risk.
- Our EMS staff have been trained on the latest N.C. Office of EMS guidance, which includes additional patient screening. Any patients presenting to EMS with a fever and respiratory symptoms should expect to be asked to wear a surgical mask provided by EMS staff. Patients will be transported to Sentara Albemarle Medical Center or Vidant Chowan Hospital, where they will be isolated from other patients until testing can occur.
- How can you help!
 1. Volunteer with Meals on Wheels
 2. Volunteer with Baptist on Missions
 3. Share AUTHORIZED Public Information on Social Media
 4. If you can use electronic transactions for business, please do so.
 5. Only share accurate information from trusted sources
 6. Offer to make grocery and pharmacy runs for neighbors and those isolated, only if you are not sick or have not been exposed to anyone that is sick.
 7. Only share accurate information from trusted sources

Things are rapidly evolving and we continue to maintain constant contact with local, state and national partners, in an effort to minimize the impact in our community. Albemarle Regional Health Services recommends that you continue to practice these safety and preventative measures:

- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose, and mouth.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.
- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing or sneezing. If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty.
- Practice social distancing; avoid handshakes, hugs and other close contact.
